(Affiliated to Karnatak University Dharwad)

**AQAR 2022-2023**

**CRITERION 7.1.2**

### 7.1.2 The institution has facilities and initiatives for

- Alternate source of energy and energy conservation measures

#### Solar energy: Solar Plant

Solar power is one of the solutions to overcome the energy deficit. This is one of the renewable energy sources, and the generation of solar power do not have any adverse effect on the environment. As a part of its 'Green Campus' initiative, Kittel Science College-Dharwad, installed (30kw) distributed rooftop Solar Power Plant on the roofs of its academic building. The energy from this solar installation is helping offset the institute's daytime peak electricity demand. Solar power plant is fully used for meeting the power needs of the college.
